IMGASA DEFENSA PERSONAL NO LETAL 2011

SHORT, MEDIUM AND LONG RANGE MULTIPLE TARGETS – CROWD CONTROL – FIGHT CONTROL – RIOT CONTROL

T68 M4 LATIN AMERICA LAW ENFORCEMENT PACKAGE

T68 M4 Non- Lethal Launcher Packages are the solution for agencies looking for an all-in-one tool for tactical training and subduing individuals and groups when non-lethal force is appropriate. The T68 M4 Non- Lethal Launcher works with a 20 round detachable magazine and a 50 round tactical hopper. Switch back and forth and use different ammo instantly. Up to 125 shots on one air supply. The T68 M4 Non- Lethal Launcher is extremely powerful and accurate. For law enforcement use, it has enough power to propel the projectiles at 400 fps. This enables officers to make difficult shots from 150 to 300 feet, with enough downrange kinetic energy to burst rounds on impact.

T68 M4 “Split-Fire” Latin America Law Enforcement Package [T68M4LEPKG]

Complete package includes T68 M4 launcher, hand guard, split-fire adapter, 50 round hopper, 1 x 30 red dot scope, in-line On/Off valve, high pressure air tank, 4 twenty round magazines, tactical sling, 13 cubic feet refill bottle, SCUBA fill adapter, 500 practice balls, 100 pain compliance balls, 100 chile pepper balls, 10 glass breaker balls, and carrying case. This is an all inclusive crowd control kit.
